The Master of Professional Accounting (MPA) is for graduates who have a degree in a discipline other than accounting. Students gain an appreciation of the theory underpinning accounting, as well as relevant legal and practical issues. The Master of Professional Accounting (Advanced) provides an opportunity for students to undertake a specialisation in either Financial Management or International Business.

The course has a set program and students are not permitted to vary the program.

If you cannot follow the recommended study program outlined below due to receiving credit for prior learning, you should discuss your study sequence with the Course Director who can be contacted via master-professionalaccounting@uow.edu.au.
